

Daphna Moore's Information

I began studying astrology with the Rosicrucian Fellowship Association in California through correspondence courses in 1960, 40 years ago and have continued studying several metaphysical subjects throughout the years.

I began studying Numerology in 1970 and have combined both of these sciences to provide the most accurate readings available for my clients.

I taught Metaphysical Bible Interpretation classes at the Mile Hi Church of Religious Science in Denver and Lakewood, Colorado, in the early 1980s and participated in many metaphysical fairs throughout the country, and gave readings in many metaphysical book stores.

I have studied the ancient teachings of Tarot and the esoteric symbolism of the major arcana and published *The Rabbi's Tarot*. I am also a member of Self Realization Fellowship in California.

Let me explain what READINGS are. I gather all the information required from you and look at several things, i.e., your Natal, Solar, Progressed, Spiritual Path, Numerology, and I do a Tarot reading from *The Rabbi's Tarot*. With all of this information it paints a picture for me and I will tell you something about yourself that you probably did not know.

Astrology

There are THREE main factors in Astrology. The law of 3 is present everywhere in Astrology. Perfect balance and harmony are achieved only when the law of 3 is considered:

EXAMPLE: relationships between 2 people only work smoothly in the presence of the divine higher power; also the 2 sides of a coin are totally meaningless without the 3rd factor of the presence of the meaning of money itself. It comes down to my side, your side, and the right side or my understanding of truth, your understanding of truth, and Truth being Truth.

Metaphorically, the SUN locates an entity in the present, the MOON recalls the past, and the ASCENDANT points to the future. Together the SUN, MOON, and ASCENDANT impart a sense of direction.

NOTE: According to traditional definitions of science, Astrology is scientific because it is a discipline, which uses set rules to explain natural phenomena. In addition, the Greek word 'scientia' simply means wisdom. Some astrologers claim that traditional astrology is a science, while others want to create a new scientific astrology separate from traditional practices.

Natal Birth Readings

It is a horoscope (The aspect of the planets and stars at a given moment, such as the moment of a person's birth, used by astrologers.)

You discover your strengths, weaknesses, talents, and gifts. By understanding the patterns, aspects of the planet, you can understand the dynamics in your life, what you

brought into this existence, this lifetime. The purpose of having your Natal Chart done is to gain information about yourself.

Numerology

Numerology is a system of analysis of the study of numbers and their meanings. I use the Patagonian method of numbers. Pythagoras was a philosopher and mathematician who lived and taught in southern Italy in the 6th century B.C. The Pythagorean Theorem is named after Pythagoras. I use the inverted pyramid or Cabalism of numbers to find answers to many issues. Each letter in the alphabet is assigned a number starting with the letter A = 1, B = 2, down to I = 9 and then start over again with J = 1, K = 2, down to R = 9, and then start over again with S = 1, T = 2, down to the letter Z = 8. I then assign the number to the letters in your birth name from your birth certificate and use your birth date in order to obtain information for creating the inverted pyramid or Cabalism of numbers.

Numbers do contain in their symbolism a certain spiritual attraction or magnetism, and numerology explains that each human soul, having chosen a path to take in this life, attracts unto his or her identity an identification (your name and birthday) which numerically paints a picture of the unique gifts, drives, goals and stumbling blocks which will influence a lifetime of choices.

Sample Reading for John Paul Everyman, Born April 4, 1950 NY, NY 12:00 PM

Dear John Paul:

You have intense, passionate loves and hates and are a jealously loyal and protective friend - or a fearsome foe. You have a nasty habit of holding on to past hurts, resentments, and guilt - and to keep such feelings to yourself. It is important for you to learn to forgive and let go, as well as to express your feelings openly and directly, rather than hiding or repressing them.

You are not content with superficial appearances and are always probing beneath the surface of things for hidden motives. You have a great deal of emotional depth.

You have strong attachments to your past, the place where you grew up, your heritage, and family traditions. In fact, you may be unable to step out of the habits and roles you learned as a child. Your tie to your mother is very strong and you also seek mothering and protection from your spouse and other family members as well.

You are dedicated to the people you care about and conscientious about meeting your responsibilities, especially to family. Family solidarity and cohesiveness are very important to you and so, therefore, are the traditions, rituals, and memories that keep the bonds strong.

You're apt to do more than your fair share in the family, to go the extra mile, but this is satisfying rather than burdensome to you for the most part.

You are open and unconventional in your attitude towards love, romance, and sex. You enjoy socializing, bringing people together, and having many friends of both sexes. You value friendship very highly and are, in fact, more comfortable being a friend than a lover. You desire an intellectual rapport or spiritual bond with your love partner, but deep intimacy and emotional bonding do not come easily to you. The role of "husband" or "wife" in the traditional sense doesn't appeal to you, and you abhor jealousy and possessiveness since you feel that no person truly "belongs" to another. You appreciate a love partner who will allow you plenty of freedom and is not very emotionally demanding.

You crave very intense, deep, emotional relationships, and would even prefer a stormy, tumultuous relationship to one which is smooth but lacking vitality and passion. You love wholeheartedly and expect all-consuming, total devotion and attention from your partner. Casual, light relationships hold no appeal for you.

You are big-hearted and openhanded with both your money and your affections and you are not happy if you have to budget or restrict yourself in any way. Pettiness or stinginess is foreign to your nature and you feel most comfortable in an elegant, beautiful atmosphere. Asceticism is not for you. Gracious and charitable, you enjoy sponsoring social events or cultural activities. You have an optimistic, friendly attitude towards

others and tend to bring out the finer side of people. You fall in love with someone who is successful, noble, and idealistic.

The people you love and the people you want to make love with are very different from one another. You may be confused about what you really need and want in personal relationships. You need to acknowledge that you have some conflicting desires (such as a partner who is very gentle and sensitive but also a powerful, dominant personality, or security and commitment in love but also a lot of freedom and excitement, etc.) Trying to satisfy both sides of the equation can be a tricky challenge.

You are open and progressive in your attitudes towards love and romance, and spontaneous and free in your love-expression. You are always willing to experiment and try anything new that your partner suggests, and you enjoy being surprised. A relationship in which both you and your partner have a good deal of freedom and independence will hold your interest much more than a safe, predictable one.

You have a need for calm and peaceful surrounding, but your somewhat passionate nature could bring on arguments and fights about love matters. You love your work and may connect your profession with a hobby in some way.

I intuit that whatever may happen to you, good or bad, life is never going to be dull. Between your own aggressiveness and vitality, your conviction of your own worth, and the way you are able to make the world believe in it, you will have your ups and downs, but you will never lose that zest for living which fills you with energy and inner drive. Although not by any means always happy (you have a way of brooding over secret matters, real or imagined, of which even those closest to you have little knowledge), you none the less give the impression of competence and ability, of holding the strands of your life firmly in your hands and of doing with them pretty much as you please. Even in adversity, you are undismayed; for a combination of faith in yourself, and in some higher power which you may or may not call God, or Luck, surrounds you with a kind of aura of invulnerability. You seem so competent and capable that you are likely not to get nearly as much sympathy from the world as others do - and you don't want sympathy; you scorn it. Ready enough to give it to others (though in a rather detached and impersonal manner), you would consider yourself humiliated if sympathy were offered to you. You are able to take care of yourself, and do, and are proud of it, and resent any implication that you can't. This justifies your pride both to yourself and to the world.

You have a turbulent nature, and in many ways lead a turbulent life. If you are born low, you go high; if you're born high and secure, you're likely to go low and jump back again. There's a steel spring in you that stays wound up, waiting for the emergencies of life, for you are not really ambitious in a worldly sense. You want security, comfort, activity, excitement, perhaps, but you are content with these. You like recognition, but for its own sake rather than for wealth. You are pretty set in your ways, very inflexible when your mind is made up - determined without the appearance of being stubborn (though of course you are stubborn!), and able to convince people peaceably even against their wills.

You are exceptionally loyal and devoted in matters of love and stick to your friends through years and years.

Your rewards in life are deeply intimate and personal, and the conviction of your own worth, is of more value to you than all the money or property in the world. Thus, as an artist, though you may, through your vitality and your ability to magnetize the public, achieve some degree of fame and recognition, you pursue your art from a truly inner sense of well-being in a task well done, in a Self properly realized and expressed. But at the same time that you are expressing yourself in this or in some other way, there are deep wells of secret things that you do not express at all - ideas, ideals, dreams, imaginings, that never come to the surface and would surprise your friends if they knew of them if they were not prepared never to be surprised by anything you may do. This great fund of secret ideology provides inspiration if you are an artist of any kind, and magnetic force to your personality, either in business or in social matters.

You are capable of demanding little and giving much; but you won't be imposed on, and you have a sure instinct for the chiseler, the sycophant, or the fawner who may seek your friendship merely to be helped by your money or your influence. Him you detect and scorn. But you will give the shirt off your back for a worthy person, though you have in general little interest in causes. You will help individuals and let the causes take care of themselves. A high temper is compensated for by deeply sincere emotions.

Your Destiny Number is 2.

You are a powerful presence without any awareness on your part of having personal power. You are a channel for higher vibrations. But in order to be emotionally and psychologically at peace, you must learn to control that flow of energy. You possess a bridge between the unconscious and the conscious. The trouble is that the unconscious is an infinite resource, while consciousness by definition is a limited arena. The two are therefore at odds until they can learn to live in harmony with each other. This is where control comes in. Until you are able to control the flow of energy from this infinite source, you may feel like a victim of its whimsy, thrown about by emotional turmoil and nervous tensions.

John, you have always sensed that you are different, but it was an indefinable feeling. You are enormously sensitive and aware, especially as a child. This made you vulnerable to all conflicts and painful situations. For most of your upbringing, however, you did not realize that other people did not possess the same sensitivity, nor did they see the same things you were seeing. This caused a great reservoir of emotion that was dammed up behind an inability to express your feelings, even to yourself. For this reason, most 2 Destiny numbers have a difficult childhood. Your extreme sensitivity made you very shy as a child. This usually manifests in adulthood as hesitation and acute vulnerability. You are very careful about sharing your feelings with others and choosing your friends.

You compensated for your sense of separation in childhood by creating an elaborate fantasy world. You daydreamed more than other children. You have a lively imagination and even in adulthood have a hard time separating reality from fantasy. John, your

challenge is to bring forth your primitive, earthy strength. You need to be grounded in order to deal with your lightning bolts. The more you are able to call upon your inherent human strength, the greater your capacity to take advantage of your extremely sensitive awareness. Once this is accomplished, your antagonist becomes your benefactor.

You are highly emotional and dependent upon relationships. Emotionally, you go up and down with the fortunes of your love life. You are idealistic, impractical, and at times disorderly. You are often unrealistic in your expectations. Your reasons for doing things are usually born of a mixture of logic, emotion, and intuition, which can rarely be explained satisfactorily to your more rational associates.

The 2 Destiny is the number most dependent upon other core numbers in your chart for insight into your vocation. The 11/2 charges every area it enters, but it needs a grounding vocation and discipline to be effective. A balanced 11/2 is one of the most unique and impressive of all people. It is gifted with insight and illumination, which it can transmit to others. This makes you a natural teacher in whatever area you enter.

Karmic Lessons 2 and 6

In a previous sojourn/lifetime it appears you lacked the ability to work harmoniously with others and there was a carelessness to settle matters like appointments, and a decided lack of concern for others. In this lifetime as John Paul, life will bring to you people who are highly critical and petty. It may be hard for you to learn to watch your tongue and judgment toward others.

Also life probably has put you in a family whereby there is dissension and friction between your parents. The possibility of more than one marriage is indicated if you are not taking responsibility for self, home, family and others. People, family friends and neighbors will constantly demand your time and energy or your counseling ability. Learn to cooperate and share the responsibilities of life; then things will fall into place. This year you will start something new that will be very unique and different.
